

Please send registration to:

Canadian Bobath Instructors Association

P.O. Box 19656,
Vancouver, BC, CANADA, V5T 4E7

For Further Information Contact:
info@cbiaorg.com
by Fax to 604.321.5827

Applications are received on a first come first served basis and course places will be reserved when accompanied with a current dated cheque. Course application fees will be deposited on receipt of your application in order to reserve your course place

Cancellation Policy:

For cancellation prior to the deadline a \$50.00 processing fee will be charged. For cancellation after the deadline no refund will be provided unless the space can be filled from the wait-list at which time a \$100.00 processing fee will be charged.

In the event that CBIA cancels the course for any reason full refunds will be provided.

Participant Insurance:

Given the practical nature of the course we encourage all participants to have current liability insurance coverage. If you are attending the course from out of province, current liability insurance coverage is mandatory. A copy of your insurance certificate is required to be submitted with your application.

Dates & Times:

Monday	Nov 29	8:30 – 5:00
Tuesday	Nov 30	9:00 – 5:00
Wednesday	Dec 1	9:00 – 5:00
Thursday	Dec 2	9:00 – 5:00
Friday	Dec 3	9:00 – 5:00

Instructor Biographies:

Julie Vaughan-Graham M.C.S.P., PT, M.Sc (cand); graduated from St. Thomas' Hospital, London, England in 1986. Julie has worked in the area of neurorehabilitation since 1988, and has a special interest in the rehabilitation of the incomplete spinal cord injured individual. Julie emigrated to Toronto in 1991, initially taking a position at Lyndhurst, Spinal Cord Injury Centre, and then later opening her own private community neurorehabilitation practice, Physio-Logic, in Toronto in 1993. Julie qualified as an IBITA Bobath Instructor in 2000 and as an Advanced IBITA Bobath Instructor in 2008. Julie is currently enrolled in an M.Sc. 'The Bobath concept' at Leeds Metropolitan University, Leeds, UK, and is in her final year completing her dissertation on 'Clinical Reasoning and the Expert Bobath Therapist'. Julie maintains a clinical caseload at her private practice in Toronto, and provides one on one clinical mentorship on a consult basis to physiotherapists and occupational theapists. Julie has a Status-only Instructor status with the University of Toronto. She instructs post-graduate clinical Bobath courses across Canada and Internationally.

Course Description:

This is an advanced level course designed specifically to facilitate individual development of ones clinical reasoning process with respect to the Bobath concept. The course will provide an opportunity to explore the link between theoretical and practical knowledge, and the critical thinking skills of the therapist, which are essential to effective clinical reasoning. This is a clinical course underpinned by the evidence based theory supporting clinical reasoning in which the course participant will have ample opportunity to explore, and develop, their clinical reasoning process through the utilization of daily patient treatment sessions, patient demonstrations, lectures, guided discussion and practical exploration. The course will consist of some pre-course activities to facilitate the necessary interactive nature of this course.

Course Objectives:

- To develop the 'Thinking Power' of the individual clinician
- Develop the course participant's ability to select critical cue's and cluster data with respect to a clinical presentation to promote the development of hypothesis generation as a component of the clinical reasoning process.
- To develop the critically reflective (metacognitive) abilities of the clinician to facilitate knowledge generation.
- To develop a structured process to enable the clinician to make their reasoning process more explicit to facilitate one's own learning, and their ability to teach this process to students.
